Hello, I was assigned to a group to rent a car at 9/8 when we arrived here, but after group assignments to their respective counties, the whole group was dispersed and the rental car is now being used at another county in another hotel location. For the last 5 days I've been left without transportation having to wait for a ride at the lobby and running behind others from other regions

asking for a ride. There are currently 6 employees from R7 with only 1 rental car reporting to the R6 Labs and then dispersing with their respective teams. I advise and request to be able to rent a car.

Thank you
